Re: Compliance Evaluation Inspection
 Allied Waste Services-Pulaski Transfer Station
 State Operating Permit No.SOP-11026
 Pulaski, Giles County, Tennessee

Dear Mr. Jernigan:

On February 25, 2015, division personnel conducted a Compliance Evaluation Inspection (CEI) of the wastewater system serving the Allied Waste System-Pulaski Transfer Station. A CEI is conducted to determine compliance with the terms and conditions of the permit. The following observations were made during the inspection:

1. The State Operating Permit became effective on June 1, 2011 and shall expire on April 30, 2015.
2. This permit authorizes the operation of a pump and haul system for the collection of employee wastewater at the facility. The collection system consists of a 1,000 gallon holding tank equipped with a high level alarm. There was no evidence of any overflow or spillage around the holding tank on the day of the inspection.
3. Quarterly operation reports of when pumping take place is being submitted to the Columbia Environmental Field Office. All records and information required by the permit must be retained for a minimum of three years.
4. A sign has been placed adjacent to the holding tank and contains the information listed in the permit.

5. In the event this location is operated by another company, this permit is transferable upon approval by both parties and the Division of Water Resources. Submit in writing an agreement signed by both parties to the address listed below:

Tennessee Department of Environment and Conservation
Division of Water Resources
William R. Snodgrass-Tennessee Tower
312 Rosa L. Parks Avenue, 11th Floor
Nashville, TN 37243-1102

This concludes my observations. If you have any questions you may reach me t 1-931-840-4166 or by e-mail at gary.horne@tn.gov.

Sincerely,

Gary Horne
Division of Water Resources
